

FSC ANNUAL GENERAL MEETING ABBOTSFORD CONVENT 26TH MAY 2016

AGM FEEDBACK

Participants offered the following feedback about the day.

PARTICIPANT HOPES FOR THE DAY

BY 4:30PM TODAY IT WOULD BE GREAT IF WE...

Get to know and understand each other better. Add value and take away value. Everyone have a good understanding of the range of FSC activities.

CW V3-0 40-005. Draft Forest Management Standard – progress. Risk Assessment – Australia timeframe. Still have energy. Everyone understands the SDG process.

Greater commitment to supporting the standard going forward.

Walked in each other's shoes: For sale, shoes, walked in. Strengthen partnerships.
Sense of achievement.
Greater understanding of
future direction.

Greater understanding of the Standards progress and process. Shared understanding of required flexibility for consensus.

A PIECE OF ADVICE WE WOULD OFFER ON HOW WE CAN BEST WORK TOGETHER TODAY IS...

By being open, respectful and honest

Building from common ground.

Listen.

Collaborate. Communicate open/transparent

Get involved, listen and respect.

Respect for divergent views.

HOW WOULD YOU RATE THE FORMAT OF OUR DAY?

DID YOU HAVE AN OPPORTUNITY TO CONTRIBUTE TO THE DISCUSSIONS?

* NOTE THIS IS ACCOMPANIED BY THE NOTE "BY CHOICE"

WHAT DID YOU LIKE MOST ABOUT THE GATHERING TODAY AND WHY?

Interactive, varied

Networking. Shared understanding. Understanding better different points of view. Update on Standard development, Officeworks Presentation.

Well received

Good mix of participants, movement around the room helped conversation.

The variety of discussion topics and sufficient interaction between the attendees! It was a great job! Keep going like this!

Range of people involved, management of process

Facilitator Keith mixed up groups well

Opportunity for everyone to hear different perspectives. I was very happy with the afternoon session. Smaller rotating groups format was great as was the facilitation

Networking and appreciating different points of view

Love the interactive nature. Keep it up. Fantastic presentation by Officeworks

More focused than last year. Small group activities. Focus on key issues that are current and most important and controversial. Great venue.

Thought session on SDG was well facilitated and provided opportunity to share views and understand issues

Effective facilitation. Hard to see how it could be made better without excluding participation

Open and honest engagement

Positive discussions, outcome focused

The small groups talking about real and substantial issues.

Active facilitation

Lots of small groups, rapid fire change over of conversations

Exceptional experience. Well done. Congratulations to Adam and the team.

Always encouraged to interact with people of different views/perspectives. Listened and learnt a lot.

Well designed participatory process. Excellent facilitation

WHAT IMPROVEMENTS, IF ANY, COULD BE MADE TO HOW WE WORKED TOGETHER TODAY?

Venue closer to CBD

Perhaps more people attending and encourage those that turn up to stay for whole day if possible.

1 hour shorter

Clear statement of what happens next

Perhaps more deliberate mixing of chambers

There seemed to be less people attending. Not sure why.

Longer opportunity to network

The lament-like exercise was tricky because it was interpreted differently. Clearer questions would have got different answers.

For standard development discussions, a brief presentation on each topic (5 mins max) to outline conflicting stakeholder views. Eg TWS and AFPA get 2 mins each to talk on HCV

Stay on time. 9:30 on agenda, commenced after 10am.

Limit number of topics to discuss
